

# MARLDON PARISH COUNCIL

## **Weed Spraying Policy**

Marldon Parish Council does not use chemical sprays on weeds in its regular maintenance programme on Parish Council owned land . This also extends to groups working on behalf of the Council (MEG) and groups working on Council owned land (WAM)

However, should the Council be notified of a scenario whereby spraying is its only or best option to control an issue , the Council would look for the most environmentally friendly way of dealing with it and bring the options available to full Council for discussion & decision
